

Correction Notice

High-Power Motor Controller with Feedback

User's Guide

Thank you for your purchase of Pololu's SMC04 high-power motor controller with feedback. Please note the following corrections in the included printed manual:

- Page 16 (last page, last paragraph, first sentence):

Incorrect text in the printed manual:

"operating voltage of 6-24 volts"

Replace with this correct text:

"operating voltage of **6-18** volts"

- Page 14 (item number 6):

Incorrect text in the printed manual:

"DERIVDIV integral term divider"

Replace with this correct text:

"DERIVDIV **derivative** term divider"

A corrected manual is available on our web site:

http://www.pololu.com/products/pololu/0425/smc04a_guide.pdf
